

HOSTED PBX – PUT YOUR VOICE INTO THE CLOUD

Aloha Tone is a Voice over IP (VoIP) Service Provider that brings business phone services and features to the local business. We empower our clients with communications, leveraging emerging technologies that are both cost effective and highly productive, improving our clients' bottom line and efficiency. Some of our benefits include local customer service and support, free domestic (Inter-Island and Mainland) outgoing long distance calling, 808-area code phone numbers for both Voice and eFax (fax to your email), Caller ID, E-911, white-page and directory listings, and a phone system specifically customized to your business needs. We offer Unified Messaging, Automated Call Distribution, IVR /Auto-Attendant with customizable greetings, and Call Accounting. Call us now for a FREE consultation to see how we can reduce your monthly phone bills. Aloha Tone...it's for you!

- Low start up cost
- No charge for changes
- DIY Moves
- 24x7 support, 2 hour response time for system downs
- Flexible and fast deployments - have a phone anywhere you have broadband
- Scalable – grow from 1 phone to 100 phones overnight
- Multiple site design – feel like all your employees are in 1 office
- Domestic long distance is included – no surprise cost
- Keep your phone numbers – we can port your phone numbers to our service
- Receive caller ID on incoming and set caller ID on outgoing calls
- Customers never hear a busy – no longer are you limited to “lines”
- Call center functions – agents can login and log out
- Call detail records – know exactly who called in and out and when
- Data center hosted PBX allows for forwarding calls to a cell phone in case of a power outage at your office
- IVR / Auto Attendant – give caller automated options or answer the calls live
- Direct inbound dialing numbers – every phone in the office will have a direct number and the ability to answer the “main line”
- E911 – safety first
- Unified messaging - voicemail to email
- Efax – incoming to .pdf
- Send out going faxes from your desktop
- Rendezvous Conference Bridge – email a number and password and have participants meet you
- Ability to have toll-free, international and/or mainland numbers ring to your office
- Low international calling rates
- Vast array of handset options: small form factor, receptionist, executive, call center recording or video phones.
